

# MONTHLY UPDATE

## WELCOME TO OUR NEW WEBSITE!

Hey everyone, Rocky Mountain Electric is so excited to finally have our new website up and running! Our website designers over at Key Design Websites has been working tirelessly on getting us a new website made! We are so grateful that everything seems to have gone smoothly and now it's time to take advantage of our new accessories to this website. Firstly, take a look around! We have added a lot more key information to all of our services that we offer here at RME. Not only that, you can read all about our news updates and announcements straight from our website. Make sure you're following us on all of our social media platforms to be able to keep up to date on everything. We have some new offers coming soon too, so you're going to want to keep informed. Well, that's all for now! Don't forget to leave us a review on Google & BBB if you've had a great experience working with us!

## NEWS UPDATE: NOW SERVING EASTERN IDAHO

We are now serving Eastern Idaho! This includes Twin Falls, Burley, Pocatello, Blackfoot, Idaho Falls & Surrounding Areas! We are offering electrical repairs and upgrades, lighting installations and maintenance, estimates and service specialists for these areas. If you've been looking for electrical help in one of these areas, don't hesitate to give us a call!

# CURRENT MAJOR PROJECTS

## **HOTEL RENEGADE**

This hotel has plans to be finished in March of 2024. RME is the electrical engineers on this amazing addition to Downtown Boise's historical looking atmosphere. Located on the northwest corner of the intersection of West Grove Street and South 11th Street, it is eight stories high, 120,000 square feet with 122 boutique hotel rooms. It also features a restaurant and bar on the first floor and a lounge, bar and patio on the eighth floor.

## **BROADSTONE SARATOGA PARKING GARAGE**

RME will be working with the Perigee group to bring the Saratoga Apartments to life in Downtown Boise. This seven-story apartment project planned at 1201 W. Grove St. in Boise, ID with studio, one- and two-bedroom units, as well as retail space, parking and amenity areas, is planned to be finished sometime in November 2024 .

# RECENTLY COMPLETED PROJECTS

## **KDP OFFICE BUILDING**

KDP's remodel of the 18,000 square foot building, which dates to 1965, takes up space in both the basement and first floor with a new patio space added. RME was the electrical engineers on this project, bringing light and energy efficiency to all areas of the building.

## **TREEFORT MUSIC HALL**

Treefort's Music Hall is up and running and right before Treefort 2023! This Music Hall included construction of new interior demising walls to expand to 13,422 sq. ft. The ground floor construction included a new recessed venue pit, raised platform stage, public bathrooms and a brand new bar area. The main concert venue sits roughly in the middle, with a stage, three tiers of VIP seating, rail seating, and a sound booth. Treefort Musical Hall is a huge addition to Treefort 2023 allowing for more local artist to be able to perform this year.

## **RME'S INVOLVEMENT**

Within the new Treefort Music Hall, RME had the privilege of being the electrical engineers on phase two of the project. We helped with all interior lighting as well as all electrical needs needed for the new concert stage which includes a large sound booth. The new bar area and public bathrooms were also in need of lighting fixtures which RME installed. All electrical features done by RME were made sure to be of utmost importance with Treefort 2023 around the corner.

# RECENTLY COMPLETED PROJECTS

## 805 IDAHO BUILDING - LIGHT REPLACEMENT

One of the best parts of working with RME is that we make sure to keep up with maintenance of all the buildings we've worked on. Just last month, we retrofitted all the exterior lights with new LED lights to accent all the architecture of the 805 Idaho Building built in 1890. You can always rely on RME to make sure your company building is efficiently lit and taken care of.

Did you know the 805 Idaho Building used to be Boise City National Bank?

# COMPANY EVENTS

## MARCH MADNESS

On March 17th, 2023, RME Idaho & Utah threw a party for our employees to kick off the start of March Madness. Employees submitted their brackets and were eligible for a raffle drawing. Many prizes were given away such as Milwaukee tools, grab bags and RME branded items. It was an amazing turn out with over 70 of RME's employees coming to watch the first game. We love being able to put on these events for our employees to show just how much we appreciate all of their hard work they do daily for RME.

# COMING SOON TO RME

## **VIRTUAL ESTIMATING WITH STROOM**

"Stroom helps companies connect with their customers more meaningfully – reducing waste and inefficiencies and making knowledge and information more accessible to all. Our tools help support, visualize, and maintain our home and world." With Stroom, RME will be able to cut down on driving time to respond quicker to customers needs. RME will be able to virtually make estimates for smaller projects to create quicker turn around for our customers.

## **WHAT THIS MEANS FOR CUSTOMER**

Do you have a hot tub installation that you need help with but don't want to wait months for an electrician to be able to come out just to only give you a quote? With Stroom, RME will be able to talk to customers through video to see the layout of the project, save the video, and make an estimate in a quicker turnaround time. It's as easy as picking an available time, receiving a call link, and virtually showing our estimators your projects.

Schedule a safer virtual site visit. No appointment windows, no waiting.

We will send you an SMS link to a fast, secure video call and tour your space.

Show us exactly what you need with no fuss and get quotes in as fast as one day.

## **WHEN TO EXPECT IT?**

RME is hoping to be fully launched with Stroom by mid April. We want to make sure that we are fully trained and ready to bring this to our customers so that each customer is getting the best experience. Make sure to keep an eye out on our social media platforms (Facebook, Instagram and LinkedIn) to see once we are fully up and running with Stroom virtual estimating.
